*The Garden City Hotel*

*7 C.E. Credits*

*Corporate Sponsors*

*Synthes Maxillofacial  
Dolphin Imaging Management Solutions*

### Meet our Coordinators

Courtney Gilbride

Jessica Joseph

### Temporary Implants Save the Day

Often patients seek dental rehabilitation and do not wish to wear a removable prosthesis when undergoing reconstruction with dental implant technology. The advent of the temporary implant has allowed us to transition the patient from a tooth born prosthesis to an implant supported prosthesis without the patient ever wearing a removable denture or partial . The patients have been able to function comfortably with these temporary implants until the time we can place the permanent implants into function. If you would like more details on the systems available please do not hesitate to contact us.

### New Orthognathic Surgery Manual facilitated by NYCOMS

**NYCOMS** has recently developed an Orthognathic Manual that will assist orthodontists in explaining to their patients the benefits of orthognathic surgery and if they are a candidate. The manual includes information on identifying corrective jaw surgery candidates, the surgical correction of dentofacial deformities, the overall surgical protocol, distraction osteogenesis, keys to successful orthodontic/surgical set-up, assessing growth, and specific case studies.

#### Upcoming Events

*Swing for Smiles Golf Outing*

**To benefit:**

**Hagedorn Cleft Palate and Craniofacial Center  
at  
North Shore University Hospital**

**June 21, 2004**

**Wheatly Country Club**

**For more information contact:**

**Linda Dunckley, RN**

**Phone: (516) 466-2990 ext. 562**

**Fax: (516) 466-3780**

#### **Why We Need Your E-Mail**

For doctors who refer orthognathic patients to **NYCOMS**, a direct link has been created for data communication. Thru the use of Dolphin Anywhere the referring doctor will receive an email alert that your patients file is available. Once signed in the data appears for viewing. In order to send you the link to access your patients photos, x-rays, models, treatment plans and prediction photos we require your e-mail address. Please e-mail your e-mail address to Jessica at [jjoseph@nycoms.com](mailto:jjoseph@nycoms.com) to give her your e-mail.

**St. Charles Cleft Center to Hop on Smile Train**
